# Gayathri R

## Frontend Developer(React)

### PROFESSIONAL SUMMARY

Accomplished Frontend Developer with expertise in crafting responsive and scalable applications using React.js and JavaScript. Proficient in integrating frontend with RESTful APIs and optimizing for performance. Quick learner adept at leveraging Generative AI to stay ahead on the latest industry trends and technologies.

### PROJECTS

#### 1. Netflix Website | |

HTML5 | CSS3 | Responsive Web Design | JavaScript | React | Firebase

- Built a responsive web app with user authentication and dynamic movie content using React and Firebase.
- Implemented secure login/logout functionality and fetched dynamic content from the Glitch API.
- Designed a responsive layout that adapts to various devices, enhancing user experience.
- Developed interactive movie browsing with scrollable title cards and a dynamic navbar.
- Showcased prominent movies with a hero section, ensuring cross-browser compatibility.

#### 2. AG Fashion Store | |

JavaScript | HTML5 | CSS3 | Responsive Web Design | Git

- Developed a responsive online fashion store using HTML, CSS, and JavaScript focusing on user experience.
- Implemented product filtering, sorting, and an autocomplete search feature for smooth navigation.
- Created a secure checkout process with a cart page and payment page.
- Showcased products effectively through a designed landing page, ensuring mobile-friendly layout.
- Utilized Git for version control, completing the project as a solo developer within 1 week.
