Gayathri R

Frontend Developer(React)

PROFESSIONAL SUMMARY

Innovative Frontend Developer adept in creating scalable, responsive user interfaces with React.js and related technologies. Skilled in integrating with RESTful APIs and optimizing performance for diverse devices. Keen on continuous learning, swiftly adopting new tech stacks, including Generative AI, to enhance development efficiency.

PROJECTS

1. E-CommerceHub | ⊕ | ◉
React | Redux | Firebase

- Designed a responsive e-commerce platform with React and Redux, focusing on product filtering, sorting, and pagination.
- Integrated Firebase for secure authentication, cart management, and real-time updates.
- Created zoomable product images and a secure checkout experience for users across all devices.
- Showcased strong problem-solving skills by independently completing the project under tight deadlines.

2. AG Fashion Store | ⊕ | ◉
JavaScript | HTML5 | CSS3 | Responsive Web Design | Git

- Developed a user-friendly and responsive interface for an online fashion store, enhancing the shopping experience using HTML, CSS, and JavaScript.
- Implemented product filtering, sorting, and autocomplete search features, improving navigation and user satisfaction.
- Created a secure checkout process by developing functional cart and payment pages, ensuring seamless transactions.
- Designed an engaging landing page to effectively showcase products, optimizing user engagement and interaction.
- Completed the project independently in 1 week, demonstrating strong problem-solving skills and proficiency in frontend technologies.

3. Weather App | ⊕ | ◉
HTML5 | CSS3 | Responsive Web Design | JavaScript | React

- Worked with designers to build a visually appealing, responsive Weather App UI using scalable React.js components for real-time weather data display.
- Integrated the frontend with the OpenWeatherMap API to fetch and showcase live weather data across various devices.
